-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-19, 23-25, 30-33 are rejected under 35 U.S.C. 102(e) as being anticipated by Bliven et al (US 6,973,112).

Regarding claims 1-15, 23-25, 30-33,

Bliven et al illustrates in figures 6-10 an excimer laser including a chamber, a pair of electrodes (146), (148), an optical resonant cavity and window (116) see figure 1, column 4 lines 27-29, a fan (120) and an elongated baffle (174) with baffle ends (170), (172) column 6 lines 35-39, which provide protection to the optics (116) from particulate, column 6 lines 49-51.

Regarding claim 16,

Column 5 lines 38-45 discloses the baffles having an open cell structure [applicant's contour], figure 8 illustrates the baffle (1740) between the fan (120) and the active region (162).

Regarding claims 17-19,

Column 5 lines discloses the open cell structure comprising metal [applicant's fins].

Allowable Subject Matter

Claims 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 26-29 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the cited prior arts alone or in combination discloses the claimed excimer laser having the recited structural limitations of independent claim 26, in particular the portions, the first and second electrodes, the fan and flow control surfaces made of materials that react with halogen to form vapor pressures of less than 10^{-6} torr.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
